

SAVE THE DATE!

Monday 21st May 2018, 4-5pm

YOU ARE INVITED TO A PRESENTATION

Dr David Pencheon OBE, founder and director of the Sustainable Development Unit for NHS England and Public Health England.

A MUST ATTEND EVENT

David tries hard not to lecture, harangue, or wag fingers at anybody, even though his message of creating sustainable healthcare needs powerful lungs to be heard. A public health specialist, he was a teacher, drama student, director of public health, and director of the NHS Eastern Region Public Health Observatory before helping to found the unit he now runs.
